

Knight Playground is a monospaced typeface which exhibits a clear-cut appearance with slight handwritten features. It serves both as a text and a display typeface with three cuts: >> Light, >> Regular >> Bold. Knight Playground has a wide range of use cases, such as from writing code for automatic pizza ordering to writing sophisticated texts from the middle ages about Arthurian legends.

find room on the board to set on the dishes. Each
helped himself as he liked best, and to each two
were twelve dishes, with great plenty of beer and

wine. Now I will say no more of the service, but
that ye may know there was no lack, for there
drew near a venture that the folk might well have
left their labour to gaze upon. As the sound of
the music ceased, and the first course had been
fitly served, there came in at the hall door one
able to behold, of stature greater than any
earth; from neck to loin so strong and thickly
ade, and with limbs so long and so great that he
seemed even as a giant. And yet he was but a man,
